SUMMARY

I am 3rd grade computer engineering student who participated Erasmus Programme in spring term of the 2023/2024 academic year. I am currently focusing on native iOS development using Swift, UIKit, SwiftUI and actively seeking opportunities to improve my skills in mobile development. I am also a member of PauSiber Core Team that educates students interested in software technologies.

EXPERIENCE

AppsMax (Internship)

June 2025 - Present

- Developing new features and custom screens in a 1 - 2 week cycle per app
- Gained hands-on experience with SwiftUI
- Participated in UI/UX design improvements and implemented user - friendly interfaces
- Integrated RESTful APIs and handled data flow between views and models effectively

PROJECTS

Luxuria - E-Commerce App

[GitHub](#)

A minimal e-commerce app focused on showcasing products, allowing users to search by category or product name, and add items to both cart and favorites for quick access.

- UIKit, MVVM, Repository Pattern, Delegate Pattern, RESTful API, Storyboard, Custom XIB Cells, RxSwift, Kingfisher, LottieFiles

Ticky - To-Do App

[GitHub](#)

A to-do list app designed to help users organize tasks efficiently. It features a clean UI with completion status, allowing users to manage their daily to-dos with ease.

- UIKit, MVVM, SQLite, Storyboard, RxSwift

SKILLS

Swift, UIKit, SwiftUI, MVVM, Firebase, CoreData, RxSwift, RESTful API, SQLite, MSSQL, HTML & CSS, Java, C, Git

EDUCATION

Computer Engineering

Pamukkale University | Denizli, Turkey | 3rd Grade | GPA: 2,84

Sept. 2022 - Present

Politechnika Białostocka | Białystok, Poland

2023/2024 - Spring term

EXTRACURRICULAR

Languages:

- English (Upper Intermediate)
- Turkish (Native)
